

11-25-14

Gentlemen,

I am the Advisor for WCVM, the Internet radio station at Morrisville State College. I believe the terms of the agreement negotiated by College Broadcasters, Inc. and SoundExchange and published in the Federal Register on November 5, 2014, represents our station's interests. And that the agreement provides a reasonable basis for setting statutory terms and rates.

We are a small student run Internet based station and this settlement is essential to our mission with providing access to students interested in this career field as well as informing and entertaining our campus community. Budgets are being cut and we must maintain the rates established by the settlement in order for small non-commercial stations like ours to survive.

Thank you.
